

Flying Scot Challenger Fleet
Effective January 1, 2023

Flying Scot Fleet 23 will add a Challenger Fleet in the January 2023 for the Sunday races for anyone who prefers to not to race against the perennial fleet heavy weights. If interested, the following is a description of how it works.

1. One start for all boats.
2. All sailors are scored as part of the overall FS fleet and are eligible for all fleet awards and recognition based on how they finish in overall fleet. FS Series Scoring Rules will apply to all boats.
3. Skippers shall notify the fleet scorer if they wish to participate in the Challenger Fleet for the series.
4. The Challenger Fleet boats will be scored separately based on how they finish relative to one another within a race. This is in addition to being included in the overall FS fleet scoring.
5. The Challenger Fleet boats will be eligible for additional series awards and recognition based on how they finish in the Challenger Fleet. The overall Challenger Fleet results will be kept for each series.
6. If a boat places 1st in Challenger Fleet in three or four series within the year, they cannot sail in the Challenger fleet the following year.
