

## Main and Jib Only

Flying Scot Fleet 23 added a main and jib only fleet in the Fall 2018 for those that would like to ease into the Sunday races without having to duke it out with the heavy weights. If interested, the following is a description of how it works.

Boat tells the committee that they will be sailing main and jib only and the committee identifies the boats as MJ. If there are three or more MJ boats, the committee will provide a second start for the MJ fleet and they will be scored separately. If not, the boats identified as MJ are scored with the overall fleet and we will score them relative to one another when the scores are calculated for the week. Once a boat has sailed MJ, they will be scored as MJ for the series. We are not scoring a challenger fleet as we experiment with the MJ format.
